I'll get a slide I will use for section 6 to you before noon tomorrow, likely replacing the first of the two slides you have.

I'm happy to share the redline I did. It and other materials that can be shared – a side-by-side of old v. new TSCA, a description of preemption under the Act, etc. – are posted here:

Subject: UPDATED SLIDE DECK -- June 28th ABA Session on TSCA Amendments

All –

Please see Mikes note below and the revised deck attached. Please be certain that future edits are made to this version and recirculated to the team.

Please also be advised that we can post background materials on the ABA webpages and share them with meeting participants via email prior to the session. Lynn has passed a long some materials her firm has prepared, I will be including them and some of the national publications that we have permission to re-share, and I believe (on Tuesday's call) Richard has consented to the use of the EDF "red-line" of the law. [Richard, if I am mistaken on that point, let me know.]

Please be certain to send edits to the slide deck and other background materials to me not later than mid-day tomorrow.

Thanks again, everyone, for your efforts to date and availability next week.

Larry, thank you for this. Some minor changes to slide 16 and a new slide 17 on the industry perspectives. I'm happy to eliminate this slide if no one else is going to do a summary slide for that part of the presentation.

Subject: following up to our planning call for June 28th ABA Session on TSCA Amendments

All –

Thanks for participating in the planning call Tuesday for the June 28th ABA/SEER

Committee Call/Brown-Bag event on the TSCA Amendments. The planning call was very productive.

As I mentioned during that call, I feel very fortunate each of you are available next week and have been willing to join the Panel for this important event.

As promised, I have attached a basic template for the PowerPoint presentation we are crafting for use during the June 28th ABA event. It is in *draft form* and includes slides that provide some basic “place holder” functions, and still other slides (specifically in the “tutorial” sections) that include some draft content. By and large, the draft content was provided in a set of “rough cut” slides Lynn was kind enough to pass along. (Thank you Lynn for the jump-start.) However, each of those slides should be considered “fair game” and subject to further edits and additions by those of you who are responsible for doing the basic tutorials on the sections noted.

NOTE – because remarks delivered during the tutorials on each of the sections of the law being covered should not exceed 5 minutes/section, the fewer slides, the better.

Please provide any edits to this deck and / or additional slides you would like to have added (or mounted separately during the event). For purposes of getting this all together and polished on time, we agreed during the call Tuesday that edits and additional PPT material will be provided to me by **noon** this Friday. Because I am concerned a bit about “version control” of the draft, it would be very helpful to me if you limit your edits only to those sections for which you are responsible for in the “tutorial” section, and when transmitting to me, please telegraph where the edits were made. If you intend to insert new/additional slides, that’s fine, please use the format of the shell attached, or submit the new slides separately so as not to affect the format of the current deck. Thanks.

Thanks again for agreeing to participate. Please also plan to arrive at 11:45 am on Tuesday June 28th so we can get situated, give the equipment some testing before everyone else is in the room.

601 Massachusetts Avenue, NW. When you arrive, you will be asked to go to the reception area on one of the upper floors. My direct dial is 202-942-5477.
